PROFESSIONAL SUMMARY

B.Tech Computer Science student (Expected 2027) and Web Development Intern with hands-on experience building full-stack web applications using React, TypeScript, JavaScript, Node.js, Express.js, and MongoDB (MERN stack), as well as SQL and PostgreSQL. Built REST APIs with JWT authentication and database-driven applications, with a strong foundation in DSA, OOP, DBMS, Operating Systems, and Computer Networks.

EDUCATION

Parul University, Vadodara, Gujarat 2023 – 2027 (Expected)
B.Tech in Computer Science and Engineering

- **Relevant Coursework:** Data Structures & Algorithms · Operating Systems · DBMS · Computer Networks · OOP

EXPERIENCE

Web Development Intern Aug 2026 – Oct 2026
Qveto Technologies

- Developed responsive frontend pages and reusable UI components using React, JavaScript, and Tailwind CSS.
- Integrated frontend screens with REST APIs, handling data fetching, form submissions, and error states.
- Worked on backend endpoints using Node.js and Express.js, and tested API requests and responses using Postman.
- Fixed UI bugs, improved desktop and mobile layouts, and collaborated using Git and GitHub (branches, pull requests, code review feedback).

PROJECTS

TripSmart — Budget-Aware Trip Planning Platform GitHub · Live Demo
React · TypeScript · Node.js · Express.js · MongoDB · Mongoose · JWT · Leaflet

- Built a full-stack trip planning app that converts origin, destination, dates, and budget into Budget, Comfort, and Premium itineraries covering transport, stay, activities, and meals.
- Developed JWT-authenticated REST APIs with Express.js and Mongoose models for users and saved trips, plus city, flight, train, and hotel search endpoints backed by MongoDB.
- Integrated Leaflet maps to display origin, destination, and stop markers with route and distance overlays for each itinerary.

DigitalRX — Clinic Management & WhatsApp Prescription System GitHub · Live Demo
React · JavaScript · Vite · PWA · Web Speech API · Node.js · Express.js · WebSockets · Electron

- Built an offline-first PWA with React and Vite for patient registration, voice-to-text consultations (Web Speech API), and prescription generation, with data stored locally.
- Developed a Node.js and Express.js service with a WebSocket-based WhatsApp client for QR device linking, session recovery, and prescription PDF delivery to patients.
- Implemented medicine search with autocomplete and dosage autofill over a local drug dataset, and packaged the app as a Windows desktop application using Electron.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Java, C
- **Frontend:** React, HTML, CSS, Tailwind CSS, Vite
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, WebSockets
- **Databases:** MongoDB, PostgreSQL, SQL, Mongoose, Prisma
- **CS Fundamentals:** DSA, OOP, DBMS, Operating Systems, Computer Networks
- **Tools:** Git, GitHub, Postman, GitHub Actions (CI/CD), Vercel, Render

ACHIEVEMENTS

Hackathons & Competitions

- **Guidewire Dev Trails 2026 (KavachPay):** Contributed to a secure digital payments and work-proof protocol for parametric insurance, built with TypeScript and React. Live Demo · GitHub
- **XR Creator Hackathon, WAVES 2025 (Ministry of I&B):** Cleared Round 1 of a national-level XR hackathon.
- **Smart India Hackathon 2024:** Selected through the Vadodara regional round; built an autonomous tactical drone system.
- **Vadodara Hackathon 5.0, 2024 (Parul University):** Presented civic technology and smart city solutions.

Coding Profile & Certification

- **Problem Solving:** 200+ problems solved on LeetCode (Arrays, Strings, Trees); active on CodeChef and HackerRank.
- **Certification:** SQL (Basic) — HackerRank, May 2026.
